LOOKING FOR MORE THAN “JUST” A FACIAL TREATMENT? YOU’VE COME TO THE RIGHT PLACE.

OUR PHILOSOPHY: “TAKE CARE OF YOUR SKIN”

Your skin is your largest organ and covers the entire body, and yet it is often neglected. At Lily of the Valley’s Shape Club, we harness the power of science and the latest non-invasive techniques to improve your skin’s health, keep it in good condition, and make you feel good.

EXPERT, TECHNOLOGY-BASED, AND CUSTOMIZED TREATMENTS

Have you heard of the 10,000-hour rule? It’s based on the premise that it takes 10,000 hours to really master a skill – and it’s something that the owner of Lily of the Valley very much believes in.

At the Shape Club, we’ve decided to dedicate 10,000 hours to understanding your skin. And we’ve come to an expert conclusion: the best way to treat your skin is through a customized approach that combines precise manual techniques with high-quality cosmetic products and cutting-edge technologies.

A “SKIN DEPARTMENT” THAT STANDS THE TEST OF SCIENCE

When we developed our treatment offering, we studied countless techniques and methods, from age-old practices to the most recent innovations. Our aim was to find the perfect balance between performance and relaxation, the most precise movements, the most effective technologies, and the very best products. At the Shape Club, we love tech – but only if it really works. Every machine, every device that has been given a place here has already undergone the most extensive – and intensive – research. There are no miraculous tools or accessories; just very real, very effective, proven technologies.

OUR SKIN PROGRAMS

Do you believe in magic? We don't either. Especially when it comes to dermocosmetics. Keeping your skin beautiful requires care, attention, precision, and discipline. With this in mind, we've put together six programs designed to meet your specific needs. Over a period of three or five days, we'll address all your skin concerns through our expert, customized skin programs.

INITIAL HYDRAFACIAL - 30 MIN | **€195**

SUPERCLEANSE HYDRAFACIAL - 45 MIN | **€250**

Uses ultrasound to remove blackheads, and exposure to blue LED light to effectively prevent the spread of bacteria. This treatment purifies the skin, while also providing comfort and hydration.

PREVENT & PERFECT HYDRAFACIAL - 45 MIN | **€250**

GLOW & GO HYDRAFACIAL - 45 MIN | **€250**

Designed to improve skin's health, radiance and elasticity. The initial HydraFacial protocol is complemented by the application of a deeply hydrating and nourishing serum. The skin is then exposed to red LED light to help repair it and stimulate collagen production.

PROSKIN HYDRAFACIAL - 45 MIN | **€250**

This preventive treatment works to erase the first signs of aging by infusing the skin with a peptide-rich serum, which stimulates collagen production and smoothes the appearance of fine lines. Following exposure to red LED light, the complexion looks clearer, and skin feels more elastic.

FOREVER YOUTH HYDRAFACIAL - 45 MIN | **€250**

This treatment fights skin aging by targeting skin firmness and dark spots. The skin is infused with a serum rich in Vitamin C, which supports collagen synthesis. Exposure to red LED light also stimulates collagen production. Skin is rested, hydrated and more evenly toned.

ULTIMATE HYALURONIC HYDRAFACIAL - 60 MIN | **€320**

LED THERAPY

Would you like to know more about LED therapy? Allow us to throw a little light on the matter! Our photomodulation device is a medically certified LED therapy device that uses three different-colored light rays to revitalize the skin, stimulate collagen production, and correct imperfections. And it does all this at the same time! Our LED light therapy programs are tailored to your needs, and you'll see visible results from the very first session.

At the Shape Club, we want nothing but the very best. That's why we chose world-leading brand Dermalux for our LED light therapy devices, which are renowned for being the most precise, safe and effective on the market.

LED SESSIONS TO COMPLEMENT YOUR TREATMENT

You may find that you really love LED therapy – and for good reason! So you'll be pleased to know that these light therapy sessions are short, and can complement all our face and body treatments. What's more, no recovery time is required, so you don't have to hide away afterwards!

It is used to treat, strengthen, beautify, slim, and energize, and offers both health and beauty benefits, which explains why it is often used by fitness trainers, as well as sports and aesthetic doctors. Cryotherapy is a high-tech treatment that involves creating a thermal shock – and this «shock» is behind its many beneficial effects.
